

No mistake can ever change,
The fact that He is always there,
He helps us make good choices
Through life and through prayer.

We may not always know what to do,
In that way God is much bolder,
And that is the reason why always and forever,
He will be right on our shoulder.

In school, when we pray,
He is like our special guest,
Just to know He is right beside me,
I feel completely blessed.

He may not be visible to see,
But he works through those I know,
Such as family, teachers, and principals
Who help me decide the right way to go.

Through all these magnificent people,
Though I have only named some,
I know that I can look up to them now
And in the years to come.

We are like the leaves,
And God is like our tree,
He helps us use our talents,
And find the true person we want to be.

It is our choice in what we believe in,
And through school it has been made clear,
We have a responsibility to God and our faith,
365 days a year!
